Election/Restrictions

1. Claim 31 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 39-42, directed to the species of I, II, III, IV no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

2. Claims 31-47, 50-52 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 31, the cited prior art of record fails to disclose or suggest a method for topographical patterning of a MEMS device comprises a step of providing a mating element and connecting said mating element and said feature, wherein the mating element is an actuator in a disc drive, in combination with the rest of the steps/limitations of claim 31

Regarding claim 45, Applicant representative presented a persuasive argument in an interview conducted on 7/26/2006, that the step of forming a contact member 35A connected to the feature as shown in figs 11-12 of Bulat (US 5,192,699) is significantly different from the claimed step of "inserting the mating element into the feature" as required in claim 45. The final rejection of claim 45 has been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
